**MINUTES  
MEETING OF AUGUST 10, 2006**

At 5:10 p.m. Chairwoman Deborah Gordon called the meeting to order in the Second Floor Auditorium at the San Mateo Transit District Office. A quorum was attained at 5:25 p.m.

Members Attending: Chairwoman Deborah Gordon, Marc Hershman, Vice Chair Tom Kasten, Linda Koelling, Irene O'Connell, and Rosalie O'Mahony.

Staff/ Guests Attending: David Burruto (Assemblyman Leland Yee's Office), Richard Napier (C/CAG Executive Director), Walter Martone (C/CAG Staff), Brisbane Councilwoman Sepi Richardson (C/CAG Board Member), Wes Lujan (Advocation), Jim Bigelow (CMEQ Committee), Brian Moura (San Carlos Assistant City Manager), and Duane Bay (County Housing Director).

**1. Public comment on items not on the agenda.**

- None.

**2. Approval of minutes from June 8, 2006.**

*Motion: To approve the minutes as presented. O'Connell/Kasten, unanimous with one abstention (Koelling).*

**3. Briefing from C/CAG's Lobbyist in Sacramento (via conference call).**

Wes Lujan reported:

- a) In addition to trying to deal with all of the pending bills before the close of the Legislative Session, the Leadership has called a special session to discuss prison reform and a conference committee to discuss term limits and redistricting.
- b) AB 2538 (Wolk) to increase the allowable planning and program funds for Congestion Management Agencies has been sent to the Senate Appropriations Suspense File. Any bill having a fiscal impact that exceeds \$150,000 is sent to Suspense. This bill has the potential of providing about \$400,000 annually to C/CAG for planning purposes.
- c) AB 2987 (Nunez) to reform telecommunications and substantially increase the State's role in franchising is also in Senate Appropriations. There have been many amendments to this bill that have still not been released. One item of particular concern is the limiting of penalties for customer service complaints to only three days. This means that the maximum fine would be \$1,500, hardly enough to make a difference to the large telecommunications companies. Also the emergency system override has not been included in the bill. This is of particular concern for local governments. The issue relating to support for PEG channels is being championed by Senator Simitian, who has gotten a great deal of feedback from his local constituents on this issue.
- d) Next week is when the bills that are being held in Appropriations will have to be reported out or will become inactive. It will be up to the Leadership in the Senate as to which bills are allowed to be reported out of the Appropriations Committee.

- e) AB 1611 (Simitian) to allow Congestion Management Agencies to increase the Vehicle Registration Fee to support congestion management programs subject to a majority vote of the electorate in that County is in the Senate Appropriations Suspense File. Senator Simitian's office feels that this bill has a very good chance of being approved by the Governor because of the requirement that the voters be given the opportunity to decide at the ballot. Some of the other Congestion Management Agencies in the Bay Area are expressing concerns with this bill because it contains some provisions that tie the allowable uses of the funds to environmental issues.
- f) There have been two polls conducted on the likely outcomes of bonds in the November election. The Field Poll shows that the vote is much closer than individuals had thought. It was showing that the bonds are showing support in the 50%'s, while the support for Proposition 1A (protection of the sales tax on fuel) is showing substantially greater support. The campaign in support of the bonds (run out of Senator Perata's Office) is showing Proposition 1A support at 67%, Proposition 1B support at 64% (transportation infrastructure), Proposition 1C support at 60% (housing bond), Proposition 1D support at 59% (school bond), and Proposition 1E support at 66% (levy bond). Proposition 84, which is also dealing with levies and other environmental projects, may wind up negatively impacting Proposition 1E by confusing the voters.
- g) There is a rumor that AB 3026 will be gutted and amended to exclude Police and Fire personnel from Workers' Compensation reform. We will be watching for this and will express C/CAG's concern that such a move would impact local government finances by increasing the PERS rates.
- h) A conference committee was called to discuss ACA 3, dealing with term limits. It is unclear whether there will be any movement on this issue. The voters have always overwhelmingly rejected any changes to term limits.

**5. Review and approval of the Monthly Update on Pending Legislation.**

The deadline for bills to pass the Legislature and be sent to the Governor is August 31<sup>st</sup>.

**6. Consideration of positions on various bills:**

- a) Proposition 1A – Transportation Funding Protection

*Motion: To recommend a "SUPPORT" position to the C/CAG Board on Proposition 1A. O'Mahony/Koelling, unanimous.*

- b) Proposition 1B – Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006

*Motion: To recommend a "SUPPORT" position to the C/CAG Board on Proposition 1B. Hershman/O'Mahony, unanimous.*

- c) Proposition 1C – Housing and Emergency Shelter Trust Fund Act of 2006

*Motion: To recommend a "SUPPORT" position to the C/CAG Board on Proposition 1C. Hershman/Kasten, unanimous with one abstention (O'Mahony).*

- d) Proposition 1E – Disaster Preparedness and Flood Prevention Bond Act of 2006

*Motion: To recommend a "SUPPORT" position to the C/CAG Board on Proposition 1E. Kasten/O'Mahony, unanimous.*

- e) Proposition 84 – Water Quality, Safety and Supply. Flood Control. Natural Resource Protection. Park Improvements. Bonds. Initiative Statute

*Motion: To recommend that the C/CAG Board not take a Proposition 84. Hershman/Kasten, unanimous. It was felt that this Proposition might create confusion with the voters and have a negative impact on developing support for the "Parks for the Future Initiative" that will provide direct funding for local jurisdictions in San Mateo County.*

- f) Proposition 90 – Government Acquisition, Regulation of Private Property. Initiative Constitutional Amendment

*Motion: To recommend an "OPPOSE" position to the C/CAG Board on Proposition 90. Hershman/Kasten, unanimous.*

**7. Establish date and time for next meeting (September 14, 2006).**

The next regularly scheduled meeting for the Committee will be on Thursday, September 14, 2006.

**8. Other items/Comments from Guests.**

None.

**9. Adjournment.**

The meeting was adjourned at 6:20 p.m.

**Status:**

09/06/2005 - ASM CHAPTERED Chaptered by Secretary of State - Chapter No. 229, Statutes of 2005

**Calendar:****Summary**

Existing law requires the governing board of each school district, before acquiring title to property for a new schoolsite, to provide the State Department of Education written notice of the proposed acquisition, along with any information required by the department, if the proposed site is within two miles, measured by air line, of that point on an airport runway or potential airport runway included in an airport master plan that is nearest to the site. Existing law requires the State Department of Education, upon receipt of the notice, to notify the Department of Transportation in writing of the proposed acquisition. Existing law requires the Department of Transportation to investigate the proposed site and submit a report of its findings and recommendations concerning acquisition of the site to the State Department of Education. Existing law requires the State Department of Education to forward the report to the governing board of the school district. Existing law provides that state or local funds may not be apportioned or expended for acquisition of a site if the Department of Transportation's recommendation does not favor acquisition of the site. This bill would require a school district to provide the Department of Transportation with that notice before leasing property for a new schoolsite. This bill also would make these provisions applicable to charter schools.

Existing law governing settlement offers in eminent domain proceedings authorizes the recovery of litigation expenses under certain circumstances. Existing law provides that if a court finds, on motion of the defendant, that the offer of the plaintiff was unreasonable and the offer of the defendant was reasonable in light of the evidence admitted and the compensation awarded in the proceeding, then the costs allowed shall include the defendant's litigation expenses. This bill would define litigation expenses to mean the party's reasonable attorney's fees and costs, including reasonable expert witness and appraiser fees. E - 09/05/2006

**Status:**

09/05/2006 - ASM ENROLLED Enrolled and to the Governor at 12:15 p.m.

**Calendar:****Summary**

Under existing law, the State Air Resources Board (state board), the State Energy Resources Conservation and Development Commission (Energy Commission), and the California Climate Action Registry all have responsibilities with respect to the control of emissions of greenhouse gases, as defined, and the Secretary for Environmental Protection is required to coordinate emission reductions of greenhouse gases and climate change activity in state government. This bill would require the state board to adopt regulations to require the reporting and verification of statewide greenhouse gas emissions and to monitor and enforce compliance with this program, as specified. The bill would require the state board to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions levels in 1990 to be achieved by 2020, as specified. The bill would require the state board to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions, as specified. The bill would authorize the state board to adopt market-based compliance mechanisms, as defined, meeting specified requirements. The bill would require the state board to monitor compliance with and enforce any rule, regulation, order, emission limitation, emissions reduction measure, or market-based compliance mechanism adopted by the state board, pursuant to specified provisions of existing law. The bill would authorize the state board to adopt a schedule of fees to be paid by regulated sources of greenhouse gas emissions, as specified. **Calendar:****Summary**

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act of 1998), establishes a program in which the State Allocation Board is required to provide state per-pupil funding, including hardship funding, for new school facilities construction and school facilities modernization for applicant school districts. This bill would require the board to adopt regulations that ensure that school facilities constructed or modernized in whole or in part with those funds are in accordance with the high performance rating criteria in the specified Collaborative for High Performance Schools Best Practices Manual. The bill would permit the board to substitute a revised version of the Best Practices Manual that is available after August 31, 2006, for the version available on or before August 31, 2006, if the board approves the contents of that later version as being in accordance with the purposes of these provisions. The bill would require the regulations to include incentive-based guidelines that increase the base allocation provided for a school facilities project that meets the requirements necessary to generate points pursuant to the Best Practices Manual, as specified. The bill would require the regulations to award a school district that achieves at least one of the specified goals at a schoolsite with not less than \$ 50,000, with individual award levels set by the board on a case-by-case basis. This bill contains other related provisions and other existing laws.

**ACTION REPORT WITH SUMMARY BY SUBJECT****Legislative Update****Calendar:****Summary**

Existing law provides that in an action for the breach of an obligation not arising from contract, where it is proven by clear and convincing evidence that the defendant has been guilty of oppression, fraud, or malice, the plaintiff, in addition to the actual damages, may recover damages for the sake of example and by way of punishing the defendant. This bill would provide, with respect to an action filed after August 16, 2004 that results of a final judgment or settlement that is rendered on or before June 30, 2011, and includes punitive damages, that the punitive damages shall be apportioned according to a specified formula. Pursuant to this formula, 25% would be paid to the plaintiff or plaintiffs and 75% of the award would be paid to the Director of the Department of Finance for deposit into the Public Benefit Trust Fund, which would be created by the bill. The fund would be administered by the Department of Finance. Of the amounts deposited into the fund, 25% would be continuously appropriated to pay the plaintiff's attorney, as specified, and the remainder would be available for annual appropriation in the Budget Act, to be used for purposes consistent with the nature of the award, as specified. **Status:**

06/28/2006 - ASM H. &amp; C.D. Set, first hearing. Failed passage in committee. Reconsideration granted.

**Calendar:****Summary**

The Planning and Zoning Law requires local agencies to make specified written findings based upon substantial evidence in the record before disapproving or conditionally approving a housing development project that renders it infeasible for the use of very low, low-, or moderate-income households, including farmworker housing. This law authorizes an applicant for a housing development project and a person who would be eligible to apply for residence in the development to bring an action for a violation of this provision. This bill would revise the attorney's fees and costs provisions in all 3 of the above provisions by requiring the court to award reasonable attorney's fees and costs, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of these provisions, in addition to any attorney fees to which the plaintiff is entitled under a specified provision of the Code of Civil Procedure. The bill would delete the January 1, 2007, repeal date for the provisions referenced in paragraph (2) above. This bill contains other existing laws.

## Summary

The Community Redevelopment Law authorizes the establishment of redevelopment agencies in communities in order to address the effects of blight, as defined, in those communities and requires those agencies to prepare, or cause to be prepared, and approve a redevelopment plan for each project area. Existing law requires that a redevelopment plan contain certain provisions and authorizes a plan to provide for the agency to acquire by gift, purchase, lease, or condemnation all or part of the real property in the project area. Existing law permits an agency to extend the time limitation for commencement of eminent domain proceedings to acquire property within the project area only by amending the redevelopment plan. This bill would require redevelopment plans to contain a description of the agency's program to acquire real property by eminent domain, including prohibitions, if any, on the use of eminent domain. The bill would require a redevelopment agency to find, based on substantial evidence, that significant blight remains in the project area and cannot be eliminated without the use of eminent domain before amending a redevelopment plan to extend the time limitation for the commencement of eminent domain proceedings to acquire property within the project area. ## Summary

Existing law requires the State Energy Resources Conservation and Development Commission to adopt a strategic plan for the state's electric transmission grid using existing resources. Existing law requires that the plan identify and recommend actions required to implement investments needed to ensure reliability, relieve congestion, and to meet future growth in load and generation, including, but not limited to, renewable resources, energy efficiency, and other demand reduction measures. This bill would authorize the commission to designate a transmission corridor zone on its own motion or by application of a person who plans to construct a high-voltage electric transmission line within the state. The bill would provide that the designation of a transmission corridor shall serve to identify a feasible corridor where a future transmission line can be built that is consistent with the state's needs and objectives as set forth in the strategic plan adopted by the commission. The bill would prescribe procedures for the designation of a transmission corridor zone, including publication of the request for designation and request for comments, coordination with federal agencies and California Native American tribes, informational hearings, and requirements for a proposed decision. The Community Redevelopment Law authorizes the establishment of redevelopment agencies in communities in order to address the effects of blight in those communities and defines a blighted area as one that is predominantly urbanized and characterized by specified conditions. This bill would revise the definition of "predominantly urbanized" and revise the conditions that characterize a blighted area. The bill would prohibit the inclusion of nonblighted parcels in a redevelopment project area for the purpose of obtaining property tax revenue from the area without substantial justification for their inclusion. Existing law authorizes the California Integrated Waste Management Board to implement a program to award grants of up to \$ 50,000 to cities, counties, districts, and other local governmental agencies for the funding of public works projects that use rubberized asphalt concrete and meet specified qualifications, including that the project will use between 2,500 and 20,000 tons of rubberized asphalt concrete and 20 pounds or more of crumb rubber per ton of rubberized asphalt concrete. The grants are funded by an appropriation in the annual Budget Act from the California Tire Recycling Management Fund. Existing law became inoperative on June 30, 2006, and is repealed on January 1, 2007. This bill would revise the eligibility qualifications for those public works grants to instead require the project to use at least 1,250 tons of rubberized asphalt concrete. The bill would require the board to annually calculate the amount of a grant, based on the amount of rubberized asphalt concrete used on a project, and would increase the maximum amount of grant money that can be awarded to \$ 250,000. This bill would recommence the grant program on January 1, 2007, and would make the program inoperative on June 30, 2010. The bill would extend the repeal date to January 1, 2011. Existing law specifies the powers and duties of the Department of Transportation, the Metropolitan Transportation Commission, and the Bay Area Toll Authority with respect to the collection and expenditure of toll revenue from the state-owned toll bridges within the geographic jurisdiction of the commission. Under existing law, this toll revenue, other than revenue from the \$ 1 seismic surcharge, is deposited into the Bay Area Toll Account and controlled by the authority. Existing law requires the department and the authority to enter into a cooperative agreement that makes the department responsible for operating the bridges and for constructing improvements to the bridges financed by toll revenues. Existing law estimates the cost to seismically retrofit the state-owned bay area toll bridges and identifies funding to be made available for this purpose from various sources, including imposition of a \$1 seismic retrofit surcharge. Under existing law, this surcharge revenue is deposited into the Toll Bridge Seismic Retrofit Account for expenditure by the department until completion of the seismic projects and payment of the bonds issued to finance those projects. This bill would state the Legislature's findings that the amount identified for the seismic retrofit of the state-owned toll bridges is insufficient and would state its intent to identify additional funding sources for those projects. The bill would require the seismic retrofit surcharge to be paid to the authority and deposited into the Bay Area Toll Account, and would require the department to transfer to the authority, for deposit into that account, all revenue from the surcharge. The bill would continuously appropriate all seismic surcharge revenues in the account to the authority for purposes specified by law. The Planning and Zoning Law requires a city or county general plan to include specified mandatory elements, including a land use element that designates the proposed general distribution and general location and extent of the uses of the land for various purposes and a conservation element that considers, among other things, the effect of development within the jurisdiction, as described in the land use element, on natural resources located on public lands. The land use element is required to identify areas that are subject to flooding, and the conservation element may also cover, among other things, flood control. This bill would require the land use element to identify and annually review those areas covered by the general plan that are subject to flooding as identified by floodplain mapping prepared by the Federal Emergency Management Agency or the Department of Water Resources (department) and would require, upon the next revision of the housing element on or after January 1, 2008, the conservation element of the general plan to identify rivers, creeks, and streams, flood corridors, riparian habitat, and land that may accommodate floodwater for purposes of groundwater recharge and stormwater management. By imposing new duties on local public officials, the bill would create a state -mandated local program. This bill contains other related provisions and other existing laws.
